Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the specification:

Page 1, in the section of "Cross Reference to Related Application", line 7, after the year '2002', insert -- , now US Patent 6,888,004 –

Allowable Subject Matter

Applicant's amendment has addressed and overcome the previous rejection of 112/1st paragraph as well as the objection to the specification by amending Formula (Z') with appropriate bonding order.

With no other outstanding rejection, claims 1-16 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The invention is drawn to compounds of substituted *8H-1,3a,8-triazacylopenta[a]indene*; pharmaceutical composition thereof, and method of treating depression and anxiety using said compounds. The closest reference, **Cottam et. al.**

Art Unit: 1624

(US'441—cited previously), teaches the possibility of a triaza-cyclopenta[a]indene core.

However, it also teaches an aryl group as a substituent at the position corresponding to the instant R¹ which is not an aryl group in the instant claims. There is no express motivation for modifying the compound of Cottam et. al., and thus no prima facie case of obviousness can be made.

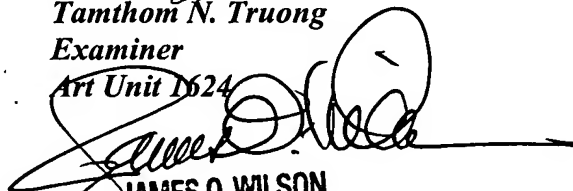

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
